Welcome to Our Weight Loss Practice

A personalized, comprehensive approach to achieving your healthiest weight

YOUR JOURNEY BEGINS

1. **Enrollment:** Complete paperwork to document your medical history and current health status. All information is strictly confidential.
2. **Consultation:** Discuss your weight loss goals. Physical exam, measurements, and lab work help us create your personalized plan.
3. **Medication Education:** Learn how anti-obesity medications work and what to expect from your individualized treatment.
4. **Follow-Up Schedule:** Monthly visits for the first 3 months, then quarterly to monitor progress and adjust your plan.

YOUR CARE TEAM

Our multidisciplinary team provides comprehensive support beyond just medication:

- **Physician** — Medical evaluation & prescribing
- **Dietician** — Nutrition planning & guidance
- **Exercise** — Activity & fitness therapy
- **Psychologist** — Behavioral & emotional support
- **Care Coordinator** — Schedule & follow-up
- **Support** — Ongoing guidance & resources

ANTI-OBESITY MEDICATIONS — OVERVIEW

Orlistat (Alli / Xenical)
5–10% weight loss
Blocks dietary fat absorption. Take with fatty meals.
⚠ Oily stools, flatulence, fecal urgency

Naltrexone-Bupropion (Contrave)
5–10% weight loss
Acts on hypothalamus and reward circuits.
⚠ Nausea, constipation, headache, insomnia

Semaglutide (Wegovy)
~15% weight loss
GLP-1 receptor agonist; weekly injection.
⚠ Nausea, diarrhea, vomiting

Phentermine (Adipex-P)
5–10% weight loss
Appetite suppressant; DEA Sched. IV; short-term use.
⚠ Increased heart rate, dry mouth, insomnia

Phentermine-Topiramate (Qsymia)
7–10% weight loss
Appetite suppression + satiety enhancement.
⚠ Dry mouth, constipation, tingling hands/feet

Tirzepatide (ZepBound)
20–25% weight loss
Dual GLP-1 & GIP receptor agonist; weekly injection.
⚠ Nausea, diarrhea, vomiting

All medications used alongside a reduced-calorie diet, physical activity, and behavior modification. Your physician will select the most appropriate medication based on your individual health profile.
